Talked to [redacted] re [redacted] 28 Oct sure

John,

A few items of comment.

L. Invoices. Have received no payment since June! [redacted] on his last trip, delivered a message from [redacted] that I should send in airline and auto receipts as the invoices were being held up for this information. I had been instructed by [redacted] last Jan. not to send receipts with invoices but to hold them for contract audit. Invoices were paid for Jan through June on this basis.

I tried to contact [redacted] but was unsuccessful so I called [redacted] on [redacted] [redacted] is the contact named in the contract. I should have called him long ago. [redacted] as said audit requested the receipts and I should send them regardless of previous instructions. So, I mailed them last Sat Oct 19.

I would greatly appreciate it if you would check with [redacted] to see if there are any other roadblocks.

2. [redacted]. I sent the enclosed letter to [redacted] on [redacted] work.

3. Trip. Our previous conversations discussed scheduling my next trip to home base about now. W What is your pleasure sir?

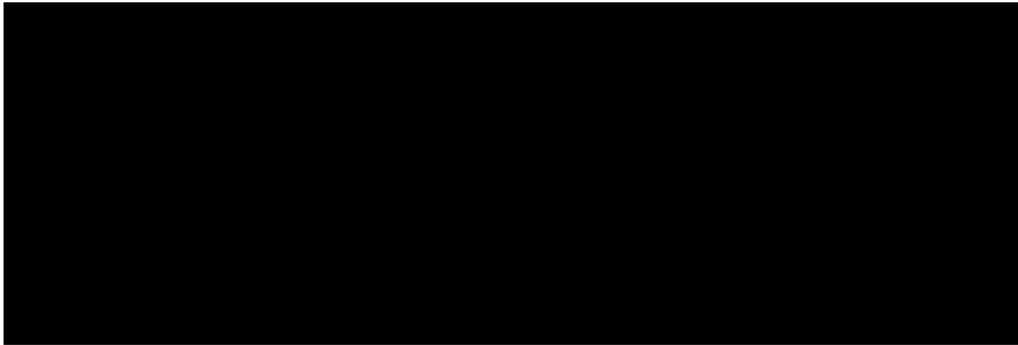

4. [redacted] I am beginning to wonder if they will ever get down to work on your reader. What avenues are open to you to force the issue. The viewers are taking priority and squeezing out work on the reader.

5. When are you planning to send [redacted] out this way? He advised me to hold off on any contacts with [redacted] pending his being checked out, and I am doing so.

Regards,

Not cleared for contact by security should be notified

STATINTL

STATINTL

Dear Sir:

Under the conflict of interest clause on page 2 of the subject contract, I hereby request consent of the Contracting Officer for me to perform services for:

STATINTL

The work will be in connection with photographic simulation of low level flight. The simulation is required by [redacted] for research investigations into pilot disorientation being conducted for the Navy.

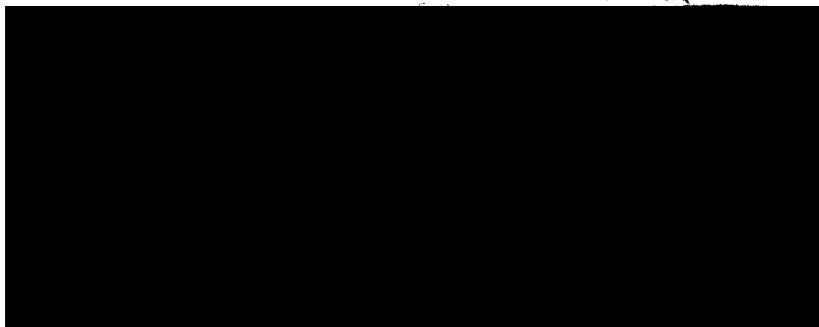

STATINTL

I anticipate engaging in similar activity with this Company from time to time.

Very truly yours,

STATINTL

cc.
